I. THE PROGRAM

Municipal Specialist certification is a *voluntary* advanced certification program providing recognition of one's professional knowledge by one's peers. The International Society of Arboriculture (ISA) Municipal Specialist recognition is given by ISA in cooperation with the Society of Municipal Arborists (SMA) to those who (1) meet the eligibility requirements for admission to the examination as set forth in this application, (2) successfully complete the examination, and (3) maintain the necessary number of continuing education units to recertify within the recertification period.

The objectives of the Municipal Specialist program are

- to be an educational program that will improve technical competency in managing the establishment and maintenance of community trees.
- to create incentives for these individuals to continue their professional development.
- to provide the public and those in government with a means to identify those professionals who have demonstrated, through a professionally developed exam and education program, that they have a thorough knowledge of establishing and maintaining trees in a community.

The benefits of the Certification Program include the following:

- Certification builds an individual's self-image. By studying for and passing the exam, individuals reaffirm to themselves and their peers a thorough knowledge and dedication to arboriculture.
- Certification affords the public and those in government the opportunity to make an informed selection of services based on the knowledge that is represented by the certification designation.
- The process of becoming certified and maintaining the designation provides incentives to the individual to continue his or her ongoing professional development.
- Certification is a tool to help employers both in training their personnel and selecting new employees.

II. THE CONTENT OF THE CERTIFICATION EXAMINATION

The certification examination is weighted in the following manner:

I. Communication Skills.....	10%
II. Public Relations/Education.....	20%
III. Administration.....	20%
IV. Risk Management.....	10%

How the Examination Was Developed

The municipal certification examination was developed by a panel of experts from the Society of Municipal Arborists. Questions were derived from a job analysis survey filled out by municipal arborists from around the United States and Canada. Questions are constantly analyzed by the Municipal Test Committee using the latest test statistics, and new questions are always being developed. Questions that do not perform satisfactorily are removed from the question bank. New examinations are created on a regular basis, by selecting 100 questions out of the question bank.

The Format of the Examination

The municipal certification examination consists of 100 multiple-choice questions. Each question has four choices listed as answers, only one of which is correct. The answer to each question can be derived independently of the answer to any other question.

When trees are referred to on the exam, both scientific and common names are given.

Candidates will have two hours to complete the examination.

Attainment of Certification

To pass the examination, candidates must achieve an overall score of at least 70 percent. If the overall passing score is achieved, the candidate will be considered an ISA Certified Arborist/Municipal Specialist and will receive a certificate, an ID card, an advertising logo sheet, a hard-hat decal, and a sew-on patch.

If an overall passing score is *not* achieved, the candidate must retake the full exam.

Denial and Revocation of Certification

Certification will be denied or revoked for any of the following reasons:

- falsification of application
- violation of testing procedures
- misrepresentation
- failure to pass the examination

Denials or revocations of certification may be appealed to the Certification Board in writing.

The International Society of Arboriculture intends that participation in ISA Certification Programs and examinations be a professionally relevant, informative, and rewarding experience for all candidates. All candidates for ISA certification are expected to conduct themselves in an appropriate and professional manner and to refrain from any objectionable, improper, or unprofessional conduct. To ensure fairness and a sound examination environment, the ISA Certification Board of Directors issues the following policy and rules.

When the ISA Certification Board, the ISA Certification Program, or an ISA-designated representative finds that a candidate has engaged in inappropriate conduct or behavior, ISA reserves the right to take responsive actions, including, but not limited to, the following: (1) reject an application for certification; (2) prohibit or preclude a person from participating in an examination; (3) prevent or preclude a person from participating during an examination, including the removal of a person from the testing site; (4) invalidate or nullify a person's examination and test results; and, (5) issue and enforce any other lesser response or action determined to be appropriate or necessary.

Inappropriate conduct or behavior includes, but is not limited to, misrepresentation; failure to disclose requested information; cheating; unauthorized possession, use, or distribution of copyrighted or legally protected material; verbal or physical disturbances of the examination or certification process; failure to pay test fees in a timely manner; and any other objectionable, improper, or unprofessional actions by a person participating in the ISA certification process.

AFTER THE EXAMINATION

Failure to Sit for Your Examination

If you do not sit for the examination, you will receive your application back with a letter from the Certification Department explaining how to sign up for another exam.

How Your Exam Is Scored

Answer sheets are electronically scanned and scored. The Certification Department understands the importance of your test results and uses many quality-control procedures, both computer and manual, during and after the scoring process to ensure the accuracy of score reports.

Your Score Report

Your individual score report will be mailed approximately four to six weeks after your test date. You must achieve an overall score of at least 70% to pass. It will give your overall test score as well as each

of the domain scores in percentages. Please remember that because each domain is weighted, the overall score is **NOT** the arithmetic average of the domain scores.

Examination Results

Your scores are strictly confidential. Therefore, results cannot be obtained over the phone, by fax, or via e-mail.

If you have questions concerning your test results, you should direct them in writing to the ISA Certification Program. However, because of the need to maintain test security, test booklets cannot be made available for review of the questions and answers, and the Certification Program does **NOT** provide a list of questions you answered incorrectly or correctly. The only information available regarding your performance on the test is provided on your score report.

Notification of Certification

Upon successful completion of the exam, ISA certification staff will send, along with the score report, a congratulatory letter, recertification information, a press release for your local paper, a certificate, hard-hat decal, advertising logo sheet, patch, and wallet ID card.

Re-Examination

If you do not pass the exam, you will receive your score sheet, a letter explaining the retake process, and a retake application. You may retake one time at no charge. If you fail to show, you will forfeit your free retake. There will then be a \$75 USD fee per retake up to one year. After one year, you will be required to pay the full amount. You **MUST** file the retake form prior to the deadline date, to be scheduled for the next exam.

Certification Renewal

The ISA Certified Arborist/Municipal Specialist designation expires concurrently with the ISA Certified Arborist designation. To retain certification after each three-year period, Certified Arborists/Municipal Specialists must recertify. The ISA certification program offers two methods of recertification. The first method is to retake and re-pass the exam. The second method is to accumulate a total of 42 continuing education units (CEUs) over the three-year period. Thirty (30) of the CEUs are for the Certified Arborist credential, and a minimum of twelve (12) CEUs are for the Municipal Specialist credential. The twelve CEUs must be related to the six domains.

CEUs can be obtained by a variety of means. One hour of credit is equal to one hour of seat time at an approved seminar. Seminars can be approved before or after they occur. Other methods include ISA study programs and CEU articles in *Arborist News*.

A more detailed explanation of CEUs is provided with the certification packet. Arborists may call ISA's Certification Department for further clarification.

If you do not achieve the necessary number of CEUs and make your recertification payment, you will be required to retake the examination. You will need to pay the full fees required to take the examination.

You are responsible for keeping records of all CEUs sent to ISA. Please know that processing of CEUs takes 4-6 weeks once received in our office.

Applications and proper payment must be received in the ISA office no later than 12 (twelve) working days before a scheduled exam. **No exceptions.**
